PROJECTUPDATE

SharorDobbinssharednformation related to the new building projects plankedafor Johnson, and Naranca. Sharon reviewed the minary ayouts for each schowhich include hase 1 work to be completed with current bond funding sent work to be added to the dng Range Facilities Master Plan. Phase 2 work will be dependent on funding from a future bond and possible state modernization funds.

Discussion hadregarding the layout of Anza's new buildings and the demobilition old, portable buildings haron shared that construction have I should be in spring 2019. Completion is expected in August 2019

Sharon continued that Phase 1 for Johnson includes -atomywclassroom building, which will be built during the 2019/2020 school Their workshould have minimal impact to the school function due to the rear access from Compton Street.

Naranca's Phase 1 scopps work will be dependent on remaining Prop C bond funds and street availability 2020 state modernization funds. Construction is expected to being in late
